THE LIBERAL ARTS.

NOTABLE EXHIBIT TO BE MADE AT THE PAN-AMERICAN.

Vast Field Covered by the Exhibit and the Methods to Be Followed in Its Illustration at the Exposition at Buffalo Next Summer.

The building which is to house the exhibit in manufactures and liberal arts at the Pan-American Exposition at Buffalo will be one of the most imposing in the splendid group surrounding the Court of Fountains. This building is 500 by 350 feet, with a central court and having a dome 70 feet in diameter over the entrance on the south.

Manufactured products and those illustrating the liberal arts are so closely allied that they naturally are classified in the same general group, and at the great expositions of recent years they have been housed under the same roof. Under the general classification of liberal arts are included such subjects as those of education and social economy, books, periodicals, scientific apparatus, hygiene and sanitation, musical instruments, public works, civil engineering, constructive architecture, photographs and photographic supplies, medical, dental and surgical apparatus and other branches of intellectual activity. Indeed it is the most progressive and noble of the tendencies and achievements of this age of enlightenment and civilization which are represented in the exhibits of this division of a great exposition.

The work of collecting and classifying the Liberal Arts exhibit for the Pan-American Exposition is now well under way and is in charge of Dr. Selim H. Peabody, whose successful handling of the same division at the great Columbian Exposition of 1893 marks him as the best qualified man on the American continent for the discharge of such a task.

The exhibits of the Liberal Arts division as well as those of other departments will be concentrated and representative rather than vast in extent and exhaustive in scope. Most gratifying progress has been made since the World's Fair at Chicago in methods of education in the public schools, universities and colleges of the United States and other Pan-American countries. The educational exhibit will give special attention to exemplifying this great progress and showing the present state of our educational institutions. It is the intention to have models prepared representing the equipments of schools, colleges and universities. The exhibit made by the United States in the Paris exposition will be removed to Buffalo for the Pan-American and will be supplemented with additional exhibits.

Closely related to the educational exhibit will be those in social economy and in hygiene and sanitation. Under the head of social economy will be included such subjects as charities and correction, co-operative associations and trades unions, apprenticeship and child labor, protection of workmen in factories and mines, workmen's dwellings, etc.

The Kind You Have Always Bought

MARRIED.

WASH-HAHN—In this city, on Wednesday, Mr. A. W. Wash and Miss Millie Hahn, both of Anderson county, were married by Rev. Wm. Crowe, of the Southern Presbyterian Church.

COX-MATTOX—In this city, on Wednesday, Mr. W. W. Cox and Miss Cora Mattox, both of Woodford county, were married by Rev. Wm. Crowe, of the Southern Presbyterian Church.

LLOYD-McCOURT—At the Church of the Good Shepherd, on Tuesday morning, Mr. Robert Lloyd, of Spring Hill, and Miss Agnes McCourt, of Cynthiana, were married by Rev. Father T. S. Major.

GRAHAM-O'CONNOR—At the Church of the Good Shepherd, on Tuesday afternoon, Mr. James Graham, of Louisville, and Miss Kate O'Conner, of this city, were married by Rev. Father T. S. Major.

Mr. Graham is in the employ of the L. & N. railroad. His bride is the sister of Mr. J. Des. Conner, of this office, and is a pretty girl.

SANDIFER-HUNDLEY—At the residence of Capt. I. T. West, the bride's uncle, on Fourth Avenue, on Monday morning Mr. Wm. S. Sandifer, of Altamont, Laurel county, Ky., and Miss Lydia P. Hundley, daughter of Mrs. Amanda Hundley, of this city, were married by Rev. M. B. Adams, of the First Baptist Church, this city.

Mr. Sandifer is said to be a fine young business man. His bride is one of Frankfort's sweetest and prettiest young girls.

Congratulations are extended.

MARTIN-HULETT—At the residence of Mr. Jephtha Hulett, in this county, on Wednesday, Mr. James H. Martin and Miss Rinda Hulett were married by Rev. John H. Burdick.

Mr. Martin is an industrious farmer and clever gentleman. His bride is said to be a fine young woman.

The happy couple went to Georgetown to visit friends on their bridal trip.

SANDIFER-HUNLEY—At the home of the bride's uncle, Capt. I. T. West, in this city, on Feb. 15, at high noon, one of the very prettiest events of this winter's season occurred. The uniting in holy bonds of wedlock Mr. W. S. Sandifer, of Covington, Ky., and Miss Lydia Pruett Hunley, of this city. The groom is connected with a well known family in Covington, Ky., where he is very highly respected. The bride is the daughter of Mrs. A. C. Hunley, of this city, and is one of our city's most popular and accomplished young ladies.

The house was beautifully decorated in ferns, pink and white carnations. The fair bride wore a gown of white muslin de soie over white silk and carried a bouquet of bride's roses. The handsome veil was a family heirloom. The ceremony was performed by Rev. M. B. Adams, of the First Baptist Church. The happy young couple left on the F. & C. train for Covington, Ky., where they were tendered a reception, after which they go to Altamont, Ky., to make their future home, where the groom holds a responsible position with the New Diamond Coal Co.

A WORLD'S FAIR INVENTION.

Electric Automobile Chairs, With Absolute Safety Attachments, a Feature of the 1904 Exposition.

Electricity is the motive power that will propel the automobile chairs at the World's Fair in St. Louis in 1904. These chairs are a new invention, and are the result of three years' study and experimenting by Semple S. Scott, a young St. Louis inventor, who recently obtained the concession to operate them during the Exposition.

The chairs have a uniform speed of three miles per hour and the operator has no control over the speed. The same rate is maintained up hill, down hill, or on the level. The machine is simplicity itself, and the World's Fair visitor may operate it as well as the guide, who will accompany him if he desires. The chair takes the form of a low phaeton without a cover. There are four wheels, two large rear wheels and two small ones under the foot rest. All are pneumatic tires. The seat is upholstered in cane as are seats on street cars and the summer railway cars. Behind the seat is a box which contains the batteries which generate the power to operate the machine. If two visitors desire to occupy the chair, and the service of a guide is wanted, he can sit on an adjustable seat at the rear.

On the inside of the chair, attached to the arm is a lever, which puts the chair in motion or stops it at the will of the rider. A long lever attached to the front truck has its handle directly in the center of the chair within easy reach of the driver. A gentle pressure guides the machine in the desired direction.

The most admirable feature of the entire machine is the sensitive rail which guards the chair on all sides save at the rear. This absolutely prevents accidents. When the rail comes in contact with any object, even though it weighs but a pound, it presses against a device that locks the wheels and brings the chair to a dead stop.

New Mexico's Pavilion at the World's Fair is of Quaint Architecture

New Mexico's pavilion on the Plateau of States at the World's Fair, has been designed after the style of an old Spanish mission. The plans were recently adopted and work on the building will begin at once.

The building will be of staff, a story and one-half high. It will present an imposing frontage of 70 feet, on one of the main boulevards, and will have a depth of 50 feet.

On entering the New Mexico Building one finds himself in a large reception hall. To the right is a room for executive and administrative uses. To the left are rooms for the commissions and superintendents of exhibits. There will be a ladies' and gentlemen's waiting room. The building is designed especially as the headquarters for New Mexicans and their friends who visit the World's Fair, and they will find plenty to remind them of home.

The grounds around the romantic structure will be laid out in typical gardens. Splendid specimens of cactus will be shown and many of the most beautiful flowers of New Mexico will embellish the place.

—Louis house 16 vessels of the size of the largest steamer afloat, the Cedric, and there would be room left for the landing stage.

—Has a capacity to accommodate 13 miles of freight cars, together with locomotives and way-cars enough to handle them.

—Arranged as a corn crib, would hold nearly the entire crop for two years of New England and New York, or half the 65,000,000 bushels constituting the average annual crop of Missouri.

—Converted into a vast silo, and filled, would store silage enough to winter many more than the 3,000,000 head of cattle shown by the last census to be in Missouri.

Like a Comet
This famous remedy does for the stomach that which it is unable to do for itself, even if but slightly disordered or overburdened.

Kodol
supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles and membranes of that organ are allowed to rest and heal. It cures indigestion, flatulence, palpitation of the heart, nervous dyspepsia and all stomach troubles by cleansing, purifying and strengthening the glands, membranes of the stomach and digestive organs.

Kodol Dyspepsia Cure
Your Dealer Can Supply You.
Bottles only, \$1.00. Size holding 2 1/2 times the trial size, which sells for 50c.
Prepared by E. C. DeWITT & CO., CHICAGO.

For sale by J. W. Gayle, drug-gist.

REPRESENTATIVE H. P. McDONALD DEAD.

It is with exceeding sadness that we announce the death of Representative H. P. McDonald, of Louisville, which sad event occurred at his home in Louisville, on Thursday.

Just a week ago, when the Legislature went to St. Louis, Mo., Mr. McDonald, who was the personification of robust manhood, declined to take the trip on account of his dislike for crowds and excursions and, as he said to us, "Because of the great likelihood of one's taking cold and contracting pneumonia."

Little did either he or ourselves imagine that he would be the first to go with the very disease he had mentioned.

He was a genial, talented and companionable gentleman—a man of high repute.

His death will cast a shadow of sorrow over a large circle of friends, as of whom we are glad to be numbered, and of the legislative body of which he was a useful member.

It is dangerous for one to take patent medicines of unknown composition.

When a person is really sick, the best course is to call a physician. Often times, however, a person is run down and out of sorts, without being actually sick.

At such times a good common sense digestive tonic is usually all that is needed.

Such a tonic is Walther's Peptonized Port, which you can get at J. W. Gayle's, Frankfort, Ky. It consists simply of pure port wine and pure pepsin. The first gives you new blood, new life; the second prompts a perfect performance of the digestive functions.

Small size 50 cents, large size \$1.00.

ANNOUNCEMENTS.

Illinois Central R. R.
DIRECT TO HAVANA

Via Illinois Central R. R. to New Orleans and the weekly Southern Pacific S. S. "Louisiana" to Havana. Leave Chicago and Cincinnati Friday morning, leave St. Louis and Louisville Friday noon, arrive New Orleans Saturday 10.00 a. m., leave Saturday 2.00 p. m., arriving at Havana Monday morning.
